1994 yılında kurulan ve Türkiye'nin hatırı sayılır alüminyum üreticileri arasına girmeyi başarmış Asistal Alüminyum, üretim merkezi olarak Kırklareli'ni seçmiştir. Organize Sanayi bölgesi içinde 44.000 m² lik açık, 19.000 m² lik kapalı alanda üretim yapmaktadır.

Yönetim, depo ve sevkiyat faaliyetlerini Çorlu merkez olmak üzere, Tekirdağ, Edirne, İstanbul, İzmir ve Bulgaristan'ın başkenti Sofya şubeleri ile Avrupa'daki eşdeğer üreticilere örnek gösterilecek uluslararası standartlara uygun olarak hizmet vermektedir.

Ayrıca teknolojik yenilikleri yakından takip ederek üretim parkını geliştirmeyi, her biri kendi dalında deneyimli ve eğitilmiş uluslararası uzman kadrosu ile insana ve çevreye saygılı kaliteli üretimi, kendine prensip edinmiştir.

Müşteri memnuniyeti ve kaliteden ödün vermeden, bilgi ve teknoloji yatırımlarını sürdürerek geleceğe güvenli adımlarla ilerleyen Asistal Alüminyum, sektörün gereksinimlerini her geçen gün daha üst seviyeye çıkarmaya ve müşterilerinin beklentilerini "mükemmeliyetçilik" anlayışı içinde karşılamaya devam etmektedir.

Founded in 1994, Asistal Aluminum has become one of the significant aluminum manufacturers in Turkey and selected Kırklareli for its production plant. It continues its manufacturing activities in 44.000 m² outdoor and 19.000 m² indoor area.

It continues its administrative, warehouse and shipment activities and provides service in accordance with international standards, which set examples for other equivalent manufacturers, in Çorlu Head Office and branches in Tekirdağ, Edirne, İstanbul, İzmir and Sofia, capital city of Bulgaria.

It has also taken as principle developing its manufacturing area by following up technological innovations, its international team of experts, who are experienced and trained in their fields and through quality production, with respect for humans and the environment.

Progressing securely towards the future without compromising customer satisfaction and quality and continuing to invest in information and technology, Asistal Aluminum continues to increase the requirements of the sector to a higher level everyday and to meet the expectations of its customers with "perfectionism" concept.

Üretim Production

Temel politikası, üretimden başlayıp son kullanıcıya ulaşana kadar ürünleri ile ilgili tüm süreçleri takip etmektir. Ürün güvenliği, sağlık, çevre ve iş güvenliği duyarlılığı ilkelerini benimseyerek tam bir müşteri memnuniyeti sağlamaktır.

EKSTRÜZYON

1 adet 4 inç 700 tonluk, 1 adet 7 inç 1.630 tonluk, 1 adet de 8 inç 2.200 tonluk 3 farklı kuvvet ve büyüklüğe sahip pres ile farklı ebatlarda profil üretim talepleri karşılanmaktadır.

Aylık 1.200 ton, yıllık 14.400 ton üretim kapasitesine sahip fabrikada EN AW 6060-6063, EN AW 6082-6005-6061 alaşımlarının yanı sıra EN AW 3003 ve EN AW 5754 gibi özel alaşımlarla da üretim yapılabilmektedir.

YÜZEY İŞLEME

7 mt kadar profillere eloksal kaplama yapılabilen tesiste, eloksal kaplama kapasitesi aylık 1.200 ton, yıllık 14.400 ton dur.

Boyahanede, 7 mt ye kadar profillere elektro statik toz boya yapabilmektedir. Aylık boyama kapasitesi 750 ton, yıllık ise 9.000 tondur.

7 mt kadar profillere ahşap transfer yapabilmektedir. Aylık ahşap transfer kaplama kapasitesi 150 ton, yıllık ise 1.800 tondur.

Its main policy is to monitor all processes, related to the products, from the production stage to delivery to end users and to ensure full customer satisfaction by adopting the principles of product safety, health, environmental and work safety awareness.

EXTRUSION

Profile production in different dimensions are carried out with 3 different extractors with different power and size; 1 4 inch 700 tons, 1 7 inch 1.630 tons and 1 8 inch 2.200 tons.

Production is also carried out with such special alloys as EN AW 3003 and EN AW 5754, in addition to EN AW 6060-6063 and EN AW 6082-6005-6061 alloys at the plant, which has a capacity of 1.200 tons per month and 14.400 tons per year.

SURFACE PROCESSING

Monthly anodic oxidation coating capacity of the plant, which can make anodic oxidation coating on profiles up to 7 m, is 1.200 tons and it is 14.400 tons per year.

Electrostatic powder coating is carried out on profiles up to 7 m in the coating plant. Its monthly coating capacity is 750 tons and yearly coating capacity is 9.000 tons.

Wood transfer can be made to profiles up to 7 m. Wood transfer capacity is 150 tons per month and 1.800 tons per year.

Dünya standartlarında üretim...
Production at World standards...

Dünyanın kabul ettiği kalite...
Quality, accepted by the world...

Kalite Quality

Standartlara uygun, kanun, yönetmelik ve tüzüklere AB direktiflerine sadık kalarak, sürekli iyileştirme ile destekleyerek güçlendirir.

Asistal Alüminyum, Balkanlar başta olmak üzere, Avrupa, Orta Doğu, Amerika ülkeleri dahil 30'a yakın ülkeye ihracat yapmaktadır. Dünyanın her noktasına ihracat yapabilmek için gerekli olan standardizasyon ve sertifikalara sahiptir.

Müşteri beklentilerini karşılamayı ve çalışanların mutluluğunu amaçlayan toplam kalite sisteminde, ISO 9001 üretimde iyi imalat koşulları ve ürün kalitesinde ulusal ve uluslararası standartlar uygulamaktır.

Quality is increased by continuous improvement by abiding by the standards, laws, regulations and codes and EC directives.

Asistal Alüminyum exports its products to close to 30 countries, primarily to Balkans and Europe, The Middle East and American countries. It has the necessary standardization and certificates, necessary to export throughout the world.

Total quality system, which aims to meet customer expectations and happiness of employees, applies good manufacturing conditions and national and international standards in product quality in ISO 9001 production.

Çevre Environment

Asistal Alüminyum, ürünlerinin kaliteli olmalarının yanısıra, üretimden son kullanıcıya kadar daima en verimli ve çevreye, insana ve doğaya en duyarlı yöntemlere öncelik verir.

Doğal kaynak kullanımında çevreye saygılı olan Asistal Alüminyum, atık miktarını önleyecek ve azaltacak geri dönüşümü sağlayarak gerekli tüm çalışmaları yapar, çevreyi korur, iş sağlığı ve iş güvenliğine önem verir.

15 m³/saat kapasiteli (360 m³/gün) kimyasal arıtma ünitesi ile geri kullanılabilir su elde edilebilen tesisi ile müşteri taleplerini benimser uygular.

Kuruluşundan beri "İnsan Sağlığında Emniyetin Simgesi" olan Asistal Alüminyum, gelişen ürün ve üretim teknolojisini, kaliteli çalışma ortamını, sürekli eğitimle desteklenen çalışanları ile birlikte pazardaki rekabet gücünü arttırmayı ve sektöründe yurt içinde olduğu gibi yurt dışında da lider marka olmayı hedeflemektedir.

Asistal Alüminyum always prioritizes the most efficient methods, which are the most conscious towards the environment, humans and the nature from production to end users in addition to manufacturing high quality products.

Asistal Alüminyum, respects the environment in using natural resources and strives to decrease the amount of waste and ensures recycling and protects the environment and places emphasis on the work health and safety.

It adopts and applies customer demands with its plant with chemical treatment unit, which can produce recycled water with a capacity of 15 m³/hour (360 m³/day).

Having become the "Symbol of Safety in Human Health" since the day it was founded, Asistal Alüminyum aims to increase its competitive power in the market and to become the leading brand abroad, as it is in Turkey, with its continuously improving production technology, quality working environment and its employees which are supported by training continuously.

Çevreye saygılı üretim..
Environment friendly production..

Cam Kalınlıđı 4, 5, 6, 8, 16, 18, 20, 22, 24 mm
Glazing

Kolay kullanım fonksiyonel çözüm...

Easy to use functional solution...

LS60-K

YALITIMLI KALDIR & SÜR SİSTEM THERMAL LIFT & SLIDE SYSTEM

Kasa Geniřliđi Frame Width	69mm - 136mm - 145mm - 221mm
Kanat Geniřliđi Sash Width	60 mm
Sistem Et Kalınlıđı Thickness	1.8 mm
Isı Bariyeri Thermal Break	Kasa-24mm, Kanat- 14,8mm
Cam Kalınlıđı Glazing	10 - 46 mm
Kanat Tařıma Kapasitesi Sash Carry Capacity	200 kg - 400 kg
Max Kanat Eni Max Sash Width	720 mm - 3235 mm
Max Kanat Yüklüklüđi Max Sash Height	1200 mm - 2700 mm ilave parça ile 3300 mm with additional part 3300 mm

LS60-N

YALITIMLI SÜRME SİSTEM THERMAL SLIDING SYSTEM

Kasa Geniřliđi Frame Width	69mm - 136mm - 145mm - 221mm
Kanat Geniřliđi Sash Width	60 mm
Sistem Et Kalınlıđı Thickness	1.8 mm
Isı Bariyeri Thermal Break	Kasa-24mm, Kanat- 14,8mm
Cam Kalınlıđı Glazing	10 - 46 mm
Kanat Tařıma Kapasitesi Sash Carry Capacity	300 kg

FDT62

YALITIMLI KATLANIR KAPI SİSTEMİ THERMAL FOLDING DOOR SYSTEM

Kasa Geniřliđi 62 mm
Frame Width

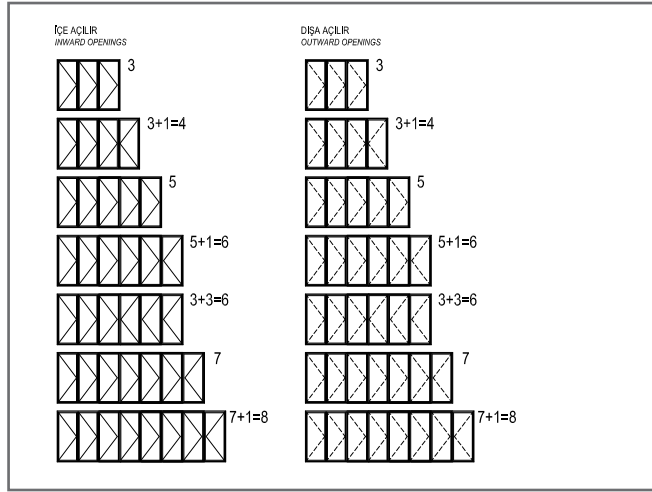

Kanat Geniřliđi 62 mm
Sash Width

Sistem Et Kalınlıđı 1.6 mm
Thickness

Isı Bariyeri 20 mm
Thermal Break

Cam Kalınlıđı 4-40 mm
Glazing

Aksesuar Seđimi Sisteme özel kol, kilitleme
Accessory Selection Special hinges, handles and locking

Projenize deęer katar...
It adds value to your project...

FC50-AS

CEPHE SİSTEMİ

CURTAIN WALL SYSTEM

Kondens kanallı cephe Sistemi

Curtain wall system with condense channel

Düsey Profiller 30, 50, 80, 90, 100, 120, 140,
Mullion Profiles 146, 150, 166, 188, 210 mm

Yatay Profiller 35, 50, 60, 65, 80, 105, 125, 155 mm
Transom Profiles

Sistem Et Kalınlığı 1.6mm, 1.9mm
Thickness

Cam Kalınlığı 6 mm - 52 mm
Glazing

Isı Geçirgenlik Katsayısı $U_f = \text{min } 2,13 \text{ W/m}^2\text{K}$ (cam kalınlıklarına bağlı /
Uf Value according to the glass thickness)

FC50-AS1 Kapaklı Cephe
Curtain wall

FC50-AS2 Yarı Kapaklı Cephe
Semi cover curtain wall

FC50-AS3 Kasetli Silikon Cephe
Structurel silicone

FC50-AS4 Ekonomik Silikon Cephe
Eco structurel silicone

FC50-AS5 Cam İçi Çıtalı Silikon Cephe
4 side structurel silicone

FC50-AS1 Kapaklı Cephe
Curtain wall

FC50-AS3 Kasetli Silikon Cephe
Structurel silicone

FC50-AST

CEPHE SİSTEMİ

CURTAIN WALL SYSTEM

Yatay ve düşey aynı profil kullanımı
Mullion and transom are same profiles

Düşey Profiller 35, 50, 60, 65, 80, 105, 125, 155mm
Mullion Profiles

Yatay Profiller 35, 50, 60, 65, 80, 105, 125, 155mm
Transom Profiles

Sistem Et Kalınlığı 1.6mm, 1.9mm
Thickness

Cam Kalınlığı 6 mm - 52 mm
Glazing

Isı Geçirgenlik Katsayısı $U_f = \min 1,94 \text{ W/m}^2\text{K}$ (cam kalınlıklarına bağlı /
according to the glass thickness)
Uf Value
